PREMIUM WORKSHOPS

At Annapolis School of Seamanship

(free seminar information on next page)

Docking Workshop

Docking can be stressful at times, and knowing the right techniques to use can make it less of a fear and more of a challenge. Join the Annapolis School of Seamanship to explore methods and techniques and get some hands on experience with line handling, communication, and docking techniques. **\$99 Oct. 5, 10:00am-12:30pm**

ICW Planning Workshop

The Intracoastal Waterway could be the best cruise of your life. It's scenic, accessible, and doable in almost any boat. Seasoned cruiser and resident liveaboard **Jody Schroath** will cover everything from bridges, barges, and buoys to cool stops along the way. Registration includes a copy of *Chesapeake Bay Magazine's Atlantic Coast and ICW Planning Guide*. **\$99 Oct. 5, 1:00pm-3:30pm**

Power Management Workshop

Managing your electrical system on a modern sailboat, is the key to keeping everything working while you're away from the dock. Certified marine electrician **Bob Campbell** covers batteries, charging systems and loads whether you're outfitting or cruising. **\$99 Oct. 6, 1:00pm-3:30pm**

Marine Weather Workshop

Senior Marine Meteorologist, **Lee Chesneau** will go in-depth into properly interpreting and using surface pressure charts for better weather predictions, routing, and decision making for safe passages. **\$99 Oct. 7, 10:00am-12:30pm**

Your Dinghy's Outboard Workshop

That trusty (or not so trusty) engine hanging on your stern rail can leave you stranded if not cared for properly. Join certified outboard tech **Larry Jenc** as he discusses small outboard engine operation, maintenance, and troubleshooting of two-stroke and four-stroke outboard engines. **\$99 Oct. 7 1:00pm-3:30pm**

Tablets and Apps Workshop

Tablets are more than just a toy for the kids. With recent advances in apps and hardware, they can now be used on any boat in many different ways, whether as a stand-alone navigation tool or integrated into the vessel's existing systems. This workshop will cover many of the different applications available to mariners, from navigation, tides and weather to marina booking and cruising guides. Attendants are encouraged to bring tablets with them (although not necessary). **\$99 Oct. 6, 10:00am-12:30pm**

\$99 Premium Seminar registration includes one ticket to the Boat Show and a \$50 voucher towards a class at Annapolis School of Seamanship. To register for premium workshops visit: www.annapolischoolofseamanship.com/boatshow.

All workshops are held at the Annapolis School of Seamanship, 601 Sixth St., Annapolis, MD 21403

For more info, call Annapolis School of Seamanship at (410) 263-8848.

Boat Show ticket for workshop registrants will be available at the School or at our check-in desk in front of the second floor ballroom Friday-Sunday starting at 9:00am.

Chesapeake Bay MAGAZINE FREE SEMINARS ON SAILING, CRUISING, AND SYSTEMS

At the Annapolis Waterfront Hotel

	FRIDAY	SATURDAY	SUNDAY
	Oct. 5	Oct. 6	Oct. 7
10:00am	\$1 BOAT! The Achievable Dream	Bermuda Bound	Iceberg Alley
11:00am	Sailboat Plumbing	Lightning and Galvanic Corrosion	Outboard Engine Basics
12:00pm	Cruising the ICW	Cruising the ICW	Running Inlets
1:00pm	Marine Diesel Basics	Docking De-Stressed	Getting Your Captain's License
2:00pm	Docking De-Stressed	Marine Diesel Basics	Marine Diesel Basics
3:00pm	Getting Your Captain's License	Navigation Apps	Weather for Sailors
4:00pm	Weekend on the Chesapeake Bay	Weekend on the Chesapeake Bay	Weekend on the Chesapeake Bay

\$1 BOAT - THE ACHIEVABLE DREAM

YouTube personalities **Aubrey and Stefan** of *Sailing Miss Lonestar* take you on an amazing journey from buying a boat for \$1 to cruising the world and show that the dream of sailing off towards the horizon is within reach of any budget.

CRUISING THE ICW

Whether you're heading for Key West or the Great Loop, one leg of the voyage is generally the Intracoastal Waterway (ICW). *Chesapeake Bay Magazine's* **Jody Schroath** will lead a discussion about the joys and pitfalls of cruising inland waters.

BERMUDA BOUND

What steps do you take between deciding to go cruising and casting off the lines? Join global cruiser and author **Ralph Naranjo** on a passage from dream to departure.

LIGHTNING AND GALVANIC CORROSION

Some of the biggest threats to a boat and systems involve electrical current flowing where it should not be. Join marine electrician **Bob Campbell** as he reviews causes, effects, and ways to protect against lightning strikes and galvanic corrosion.

GETTING YOUR CAPTAIN'S LICENSE

Between the USCG requirements for sea time, physicals, applications and examination, getting a captain's license can seem daunting. Annapolis School of Seamanship's expert captains will discuss the ins and outs of becoming a licensed captain.

MARINE DIESEL BASICS

Pros from the Annapolis School of Seamanship will run through the basics of marine diesel engine operation and maintenance, as well as troubleshooting common problems.

DOCKING DE-STRESSED

Is docking your vessel causing you stress and anxiety? Let the Annapolis School of Seamanship show you the ropes, tricks, and techniques to make docking easy.

WEATHER FOR SAILORS

Decoding marine weather information you need to make decisions before getting underway or while out can be difficult. **Lee Chesneau** will discuss surface pressure charts, how to better understand what they mean, and how to use them.

NAVIGATION APPS

As we navigate into the 21st century, the incorporation of technology with traditional navigation methods can lead to greater accuracy and confidence. Explore how to combine the latest tablet and smart phone apps with traditional methods.

RUNNING INLETS

Running inlets can be challenging at best, even with the right weather conditions; knowing what to expect. **Frank Bohlen** will discuss how wind, current and depth of water can affect inlet conditions to help make safe decisions.

ICEBERG ALLEY

Jessie and Luke Yeates' amazing tale of doublehanding a classic 37' Yawl from Michigan to England via the Great lakes, St. Lawrence seaway, and the frigid North Atlantic through "Iceberg Alley".

OUTBOARD ENGINE BASICS

Gain a basic working knowledge of outboard engines. Certified outboard tech **Larry Jenc** covers operation, maintenance, and basic troubleshooting of small two-stroke and four-stroke outboard engines.

SAILBOAT PLUMBING

Marine heads, gray water, black water, potable water, water makers, bilge pumps, macerator pumps, washdown pumps... The world of sailboat plumbing has become a complex maze of pumps, tanks, and valves. Join us for an overview of options available and how to use them.

WEEKEND ON THE CHESAPEAKE BAY

Join *Chesapeake Bay Magazine's* John Stefancik to explore Chesapeake towns that make for easy one and two-night weekend trips on almost any boat. We'll visit ports loaded with history and good restaurants, and some fine marinas, too. Plan a summer to remember!
